We're Honest Coffees, and it's our mission to source the best Fairtrade coffee in the world and deliver it to our clients in a way that's smooth, seamless and delightful. All our coffee is sourced ethically, roasted locally and priced fairly, so both our suppliers and clients get a fair deal. And the coffee is really really good. We can charge a fair price for our coffees (typically 40% less than the other guys for equivalent top-quality beans

It's not easy to find coffee that's both ethically sourced and tastes amazing (find out why here), but it can be done, and it's how we spend our days. All our Fairtrade coffees are rated 'specialty' or higher by the Specialty Coffee Association of America (the SCAA).

But we're also keen to know where the stuff we buy comes from and that the folks behind it got a fair deal. Fairtrade coffee means our growers get a set minimum price on top of a Fairtrade premium, and this helps them invest in their—and their farms'—futures.
