

United Kingdom 

The Green Growth Platforms builds on the University of Brighton's track record in [supporting business growth](#) [1] and championing [sustainability](#) [2]

The Green Growth Platform is a 5 year programme funded by HEFCE which aims to support business growth in the environmental sectors in Sussex by:

- Attracting 1,000 businesses into the network
- Creating 250 jobs
- Carrying out 100 innovation / R&D projects
- Developing 25 new products or services
- Developing 15 new environmental modules or courses at universities or colleges
- Placing 50 interns or apprentices with companies

Our services are focused around 4 main areas:

- 1-2-1 business support
- Business events and opportunities
- Innovation, Research & Development
- Skills and training

Network size: Regional

Network coverage:

Sussex, United Kingdom

Network address:

University of Brighton, Watts Building

Lewes Road
